

Dr. Arno Gutleb graduated from the University of Veterinary Medicine Vienna (Austria) and holds a PhD in Environmental Sciences (toxicology) from Wageningen University (The Netherlands). He is a European Registered Toxicologist (ERT).

He is Distinguished Professor at the University Iuliu Hațieganu (Cluj, Romania) and Visiting Professor at Universidad Andrés Bello (Santiago de Chile).

Dr. Gutleb is Founder and Managing Director of INVITROLIZE, focusing on in vitro methods for identifying respiratory sensitizers. He has more than 25 years of experience in developing new approach methodologies (NAMs), including early work on thyroid hormone disruption and, over the past 15 years, respiratory sensitization.
